In order to effectively supervise management and decide important business matters as the Board of Directors of a general trading company with broad range of business, ITOCHU Corporation’s Board of Directors consists of, in principle, the Chairman, President, officers in charge of headquarters administrative functions, one appropriate Division Company president as an (internal) director, and such several Outside Directors that the percentage of Outside Directors in our Board of Directors is one-third or more to improve supervisory function of the Board of Directors. In nominating Outside Directors, ITOCHU Corporation prioritizes candidates with higher independence, based on the criteria for “independent directors” prescribed by the Tokyo Stock Exchange, Inc. and ITOCHU Corporation’s “Independence Criteria for Outside Directors and Outside Audit & Supervisory Board Members,” who with his or her experience and knowledge in the relevant category, are expected to contribute to the management of ITOCHU Corporation. Proposal on candidates for directors is created by Chairman & Chief Executive Officer taking into consideration diversity such as knowledge, experience, gender and international experience, and submitted to the Nomination Committee for further deliberation before the Board of Directors finally nominates the candidates for election at the General Meeting of Shareholders.

## **[Reference] Information Provision and Support Structure for Outside Directors and Outside Audit & Supervisory Board Members**

It is essential that any asymmetry between information available to internal officers and information available to outside officers be reduced as much as possible so that outside officers can most effectively perform their duties of monitoring and supervising management as “the public eye” and maximize their contribution to ITOCHU Corporation’s management.

As a general trading company, ITOCHU Corporation operates a wide range of business. So, we accordingly implement various measures to assist outside officers’ understanding of those businesses, and strive for livelier atmosphere at the Board of Directors.

### **Pre-briefing**

ITOCHU Corporation provides outside officers with pre-briefing to prepare them for a meeting of the Board of Directors. At pre-briefings, outside officers receive an explanation of the key points and details of each agenda item. ITOCHU Corporation strives to ensure that pre-briefings also serve to deepen understanding concerning major projects, including a background of events up until present and relevant management resolutions, along with the details of discussions held at internal management meetings. Furthermore, ITOCHU Corporation provides information on management plans by making process reports to outside officers at multiple stages of the formulation process as a way to reflect opinions from the diverse perspectives of outside officers in such plans.

### **Status of on-site visits**

Outside officers are provided with opportunities to regularly make on-site visits to domestic and overseas business locations, group companies, and ITOCHU Corporation’s business investment targets, and to have social exchange and dialogue with managers of the various companies and employees at the various sites in order to deepen understanding about the various key characteristics belonging to each of the broad scope of business activities, traded products and services, industries of the Group, so that such efforts can lead to appropriate decision making by the management.

In FY2021, although on-site visits were not carried out at overseas business locations due to the impact of COVID-19, on-site visits were made to two group companies in Japan. At C.I. TAKIRON Corporation, the first company to be visited, the outside officers engaged in lively discussion with the president and other members of the senior management regarding the strengths of that company’s various traded products, details of medium-to-long-term oriented ESG management initiatives, among other matters. At DESCENTE LTD, the second company, the outside officers deepened their understanding on management policies, etc. based on that company’s medium-term business plan “D-Summit2021” by listening to an explanation full of concrete detail from the senior management, visited one of that company’s stores, which is the frontline for customer service, and conversed with on-site employees.

## **Business Report**

(From April 1, 2020 to March 31, 2021)

### **1. Current Conditions of the ITOCHU Group**

#### **(1) Business Progress and Achievement**

##### **[General Economic Situation]**

In the fiscal year ended March 31, 2021, the global economy deteriorated significantly due to tighter restrictions on corporate activities and the movement of people to suppress the spread of COVID-19, but recovered slowly in general after restrictions were eased. While the Chinese economy kept recovering, by managing the spread of infections, in other parts of the world, including the United States and Europe, the brakes were put on the economic recovery as the resurgence of infections and restrictions were tightened in quick succession. The WTI crude oil price temporarily fell sharply in late April from the US\$20–25 per barrel range at the beginning of the fiscal year, but then rebounded, and stabilized at around US\$40 per barrel, due to the recovering global economy. After mid-November, the price started to increase again due to raised expectations for economic recovery backed by the roll-out of COVID-19 vaccines and the signing into law of additional large-scale economic measures in the United States, generally trending in the low US\$60 range in March.

The Japanese economy started to recover moderately as consumer spending, which had cooled significantly due to the impact of COVID-19, rebounded when the state of emergency declaration was rescinded in May, and exports began increasing after the global economy had bottomed out. However, since late November, the recovery has been tempered by the resurgence of COVID-19 and the state of emergency redeclarations in some parts of the area especially in Tokyo and Osaka. The U.S. dollar-yen exchange rate started at approximately ¥107 per dollar at the beginning of the fiscal year, and the yen depreciated against the dollar to approximately ¥109 per dollar in early June, then appreciated from late July to early January to approximately ¥102 per dollar based on expectations of additional financial easing in the U.S. The yen subsequently depreciated in line with rising interest rate in the U.S. and ended the fiscal year at approximately ¥110 per dollar. The Nikkei Stock Average began the fiscal year at approximately ¥18,000 and rose to approximately ¥23,000 in early June with expectations for economic improvement in Japan. Although subsequently weakening to approximately ¥21,000 for a period, the market gradually gained resilience, and in early November it eclipsed the ¥24,000 mark, before further strengthening against the backdrop of rising U.S. stock prices and the depreciation of the yen, to pass ¥30,000 in mid-February, ended the fiscal year at approximately ¥29,000. The yield on 10-year Japanese government bonds began the fiscal year at 0.02% and generally trended flat as the Bank of Japan provided ample liquidity to the market, but from mid-January onward, it bottomed out along with the U.S. interest rates, rising to 0.17% at the end of February, and ended the fiscal year at 0.10%.

### Making Natural Rubber a Sustainable Natural Resource

The natural rubber industry faces challenges including the human rights violations of local communities and illegal logging. We have developed a system that uses blockchain technology to track the procurement process of raw materials and enables the differentiation of natural rubber that is harmonized both with society and the environment. Our subsidiary P.T. Aneka Bumi Pratama plans to utilize this system to sell traceable natural rubber as a high value-added product that complies with SDGs. Part of the profits will be returned to the producers in order to eliminate raw materials sourced with illegal logging and contribute to the popularization of sustainable natural rubber.

### Entering the Digital Advertising Market

ITOCHU Corporation has established Data One Corp., a digital advertising distribution company, in conjunction with FamilyMart Co., Ltd. (FM), NTT DOCOMO, Inc., and CyberAgent, Inc. ## **(2) Management Policy for the Future**

### **[Outlook for the Fiscal Year Ending March 31, 2022]**

Regarding the business outlook for the fiscal year 2022, although the Chinese economy will continue to recover and the effect of additional large-scale economic measures in the U.S. will be expected, the recovery in the global economy is likely to remain sluggish for some time as the COVID-19 pandemic continues to impact primarily in Europe and some emerging countries, coupled with lingering uncertainty over the effectiveness and the availability of vaccines. The delay in Japanese economy's recovery is also concerned with the spread of COVID-19 infection showing no signs of stopping.

Amid such conditions, the U.S. dollar-yen exchange rate is expected to remain generally flat, while any increase in crude oil prices is likely to be limited due to an expected recovery in production volume by major oil-producing countries.

## [Reference] Policy and Process for Appointing Executive Officers

### Policy and Process for Appointing Executive Officers

Executive officers are appointed annually by the Board of Directors among, in principle, employees regarded as candidates for executives based on our HR system with high integrity and exceptional ability (or those who have already been appointed as executive officers) who are judged to be capable of assuming the role as the executive officers. Candidates for executive officers are first selected by the Chairman & Chief Executive Officer based on, among others, recommendations from other officers (or in terms of incumbent executive officers, based on their respective performance) and submitted to the Nomination Committee for further deliberation. Based on the deliberation and advice of the Nomination Committee, the Board of Directors appoints executive officers by its resolution. In case that an executive officer breaches the Executive Officers' Regulation of ITOCHU Corporation or otherwise his or her performance is judged to be not appropriate, the Chairman & Chief Executive Officer (or the chair of the Nomination Committee) firstly makes a proposal of dismissal, and the Board of Directors dismisses such executive officer by its resolution based on the deliberation and advice of the Nomination Committee.

Remuneration image of Directors (excluding Outside Directors)

\* In the event of net loss attributable to ITOCHU (consolidated) (referred to as “net profit (consolidated)” in this section), Directors will receive neither performance-linked bonuses nor performance-linked stock remuneration.

- In accordance with the decision policy for remuneration to Directors mentioned above, the remuneration plan for each fiscal year, which includes the formula and calculation method for the individual payment amount for each director, is determined by the Board of Directors upon deliberation by the Governance and Remuneration Committee, which is a voluntary advisory committee to the Board of Directors that is chaired by an Outside Director and composed of a majority of outside officers, within the range of remuneration limits decided at the General Meeting of Shareholders.
- Of these, monthly remuneration, which is approximately 25% of the total amount of remuneration as stated in “Remuneration composition ratios image of Directors (excluding Outside Directors),” is evaluated and determined according to factors that include the degree of contribution to ITOCHU Corporation based on a standard amount for each position. The degree of contribution to ITOCHU Corporation in FY2021 includes newly addressing the response to climate change, ESG and SDGs. (The final evaluation of the method and process is made by Chairman & Chief Executive Officer Masahiro Okafuji, who is best suited to assess and most familiar with the individual degree of contribution of each Director, in accordance with the method discussed by the Governance and Remuneration Committee.)
- Furthermore, performance-linked bonuses and performance-linked stock remuneration are calculated based on the calculation formula determined by the Board of Directors using net profit attributable to ITOCHU (consolidated) as the linked indicator. Share price-linked bonuses are calculated based on the calculation formula determined by the Board of Directors using ITOCHU Corporation's share price as the linked indicator.
- The Board of Directors has deemed that this is appropriate based on the fact that it adheres to the decision policy for the details of remuneration as individual remuneration for Directors was decided using the calculation process and procedures in line with deliberations by the Governance and Remuneration Committee and the resolution of the Board of Directors.

There were five (5) Audit & Supervisory Board Members as of the end of the 81st Ordinary General Meeting of Shareholders.

## 3) Percentage of Performance-Linked Remuneration in Total Director Remuneration

ITOCHU Corporation's remuneration plan for Directors does not have a fixed percentage of Performance-linked remuneration (performance-linked bonuses, share price-linked bonuses, performance-linked stock remuneration) and is designed so the percentage of performance-linked remuneration in total director remuneration increases as ITOCHU Corporation's performance improves and its share price increases. We believe that this design/system is in line with the decision policy of our remuneration plan for Directors, which is designed to be an incentive to grow business performance.

(Amount less than 1 million yen have been rounded to the nearest 1 million yen)

- FY2021 Director remuneration is composed of monthly remuneration, performance-linked bonuses as performance-linked remuneration, share price-linked bonuses, special benefits, and stock remuneration (non-monetary remuneration). These remunerations and bonuses were approved unanimously by the Board of Directors following deliberation by the Governance and Remuneration Committee.
- Monthly remuneration is decided based on the standard amount by position and the level of contribution to ITOCHU Corporation, including its response to climate change, ESG and SDGs.
- Following deliberation by the Governance and Remuneration Committee, at a meeting of the Board of Directors held on April 14, 2021 ITOCHU Corporation resolved to pay special benefits. These special benefits for FY2021 were paid within the limit of Director bonuses based on the minimization of earnings reductions caused by the COVID-19 pandemic, the achievement of the income goals in the “FY2021 Management Plan” and significant improvement of corporate value, and the Company claiming the top position in the general trading company industry for this first time in terms of annual average stock price and average market capitalization. Furthermore, the ¥401.4 billion in net profit in FY2021 (consolidated) was also the highest in the general trading company industry together with the above annual average stock price and average market capitalization.

## 5) Performance-Linked Remuneration and Non-Monetary Remuneration

- We have net profit (consolidated) as the linked indicator for the performance-linked bonus and performance-linked stock remuneration, which is a non-monetary remuneration. Net profit (consolidated) is of high interest on the stock market because it is an easy-to-understand indicator of capital for growth-oriented investment and returns to shareholders, and we believe that its importance as an indicator going forward is unshakeable. In addition, employee bonuses are also linked to net income (Consolidated). The change of net profit (consolidated), including this fiscal year, is indicated in “1. (3) Changes in Assets and Operating Results.”
- When calculating the performance-linked bonuses paid to each Director, the total amount of payment is determined based on net profit (consolidated), and each individual payment amount is determined in relation to the position points, etc. for the Director. The performance-linked bonuses are paid following the end of every Ordinary General Meeting of Shareholders.
- To align with our shareholders and create greater awareness of increasing corporate value, we are introducing share-price linked bonuses with ITOCHU Corporation’s share price as the linked indicator. This bonus is an index linked to the increase in the average daily value of ITOCHU Corporation’s stock price for each consecutive two fiscal years. To ensure fairness, the calculation scheme includes the relative evaluation between the growth rate of the average value of the ITOCHU Corporation’s stock price and the growth rate of the average value of the Tokyo Stock Price Index (TOPIX) for each fiscal year. The total amount of bonuses during the term of Directors is paid to them after their retirement. Furthermore, ITOCHU Corporation’s average share price in FY2021 increased by approximately ¥660 compared to the average shares price in FY2019.
- We have performance-linked stock remuneration, a type of non-monetary remuneration, for Directors via a Board Incentive Plan Trust (“BIP Trust”) as approved at the 92nd Ordinary General Meeting of Shareholders held on June 24, 2016. ITOCHU Corporation grants points (equal to one share), according to net profit (consolidated), to each Director each year during their terms of office (excluding periods when not residing in Japan), and after the retirement of a Director, stock remuneration equivalent to the accumulated number of points and an amount of money equivalent to the portion of ITOCHU Corporation’s shares converted into cash together with the shares’ dividends are delivered and provided to the Director from the BIP Trust. For Directors who do not reside in Japan, remuneration is calculated each year as an amount equivalent to stock remuneration, and is paid following the end of every Ordinary General Meeting of Shareholders, as a performance-linked bonus separate from the performance-linked bonuses above.

### Opinion

Pursuant to the fourth paragraph of Article 444 of the Companies Act, we have audited the consolidated financial statements of ITOCHU Corporation and its consolidated subsidiaries (the "Group"), namely, the consolidated statement of financial position as of March 31, 2021, and the consolidated statement of comprehensive income, and consolidated statement of changes in equity for the fiscal year from April 1, 2020 to March 31, 2021, and the related notes.

In our opinion, the accompanying consolidated financial statements, prepared with the omission of a part of the disclosures required under International Financial Reporting Standards pursuant to the provisions of the second sentence of the first paragraph of Article 120 of the Ordinance on Company Accounting, present fairly, in all material respects, the consolidated financial position of the Group as of March 31, 2021, and its consolidated financial performance for the year then ended.

### Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Responsibilities of Management and Audit & Supervisory Board Members and the Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements pursuant to the provisions of the second sentence of the first paragraph of Article 120 of the Ordinance on Company Accounting which allows companies to prepare consolidated financial statements with the omission of a part of the disclosures required under International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern pursuant to the provisions of the second sentence of the first paragraph of Article 120 of the Ordinance on Company Accounting which allows

companies to prepare consolidated financial statements with the omission of a part of the disclosures required under International Financial Reporting Standards.

Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Group's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks. The procedures selected depend on the auditor's judgement. In addition, we obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. ### Opinion

Pursuant to the first item, second paragraph of Article 436 of the Companies Act, we have audited the non-consolidated financial statements of ITOCHU Corporation (the "Company"), namely, the non-consolidated balance sheet as of March 31, 2021, and the non-consolidated statement of income and non-consolidated statement of changes in equity for the 97th fiscal year from April 1, 2020 to March 31, 2021, and the related notes and the accompanying supplemental schedules.

In our opinion, the accompanying non-consolidated financial statements present fairly, in all material respects, the financial position of the Company as of March 31, 2021, and its financial performance for the year then ended in accordance with accounting principles generally accepted in Japan.

### Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Non-consolidated Financial Statements section of our report. We are independent of the Company in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Responsibilities of Management and Audit & Supervisory Board Members and the Audit & Supervisory Board for the Non-consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the non-consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of non-consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the non-consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan.

Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Non-consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the non-consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these non-consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the non-consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks. The procedures selected depend on the auditor's judgment. In addition, we obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the non-consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate whether the overall presentation and disclosures of the non-consolidated financial statements are in accordance with accounting principles generally accepted in Japan, as well as the overall presentation, structure and content of the non-consolidated financial statements, including the disclosures, and whether the non-consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Audit & Supervisory Board members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
