Management Policy

- ▶ In April 2024, we announced **Management Policy, “The Brand-new Deal”** as a long-term management compass. In addition, we commit to single-year management plans, disclosed at the start of each fiscal year, to drive **sustainable corporate value growth**.
- ▶ In May 2026, we clearly set out the policy of **“Progressive Dividend”** in the Management Policy.

/// The Brand-new Deal

—Profit Opportunities Are Shifting Downstream—

We aim to achieve sustainable enhancement in corporate value, by having all employees, from the business divisions to the administrative divisions, always enhancing their marketing capabilities, leveraging the assets and expertise of upstream and midstream, which we have been building up for over 160 years since our founding, while developing and evolving downstream businesses that are closer to consumers.

Key enablers of growth

Our investment approach

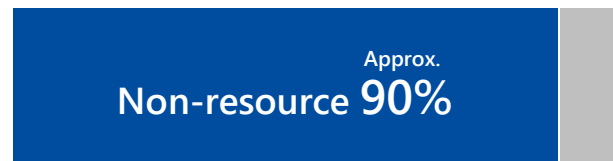

Asset allocation policy

01

Maintain current balance

Continue to maintain the current Non-resource : Resource ratio (9:1) on a total asset basis.

Total assets composition

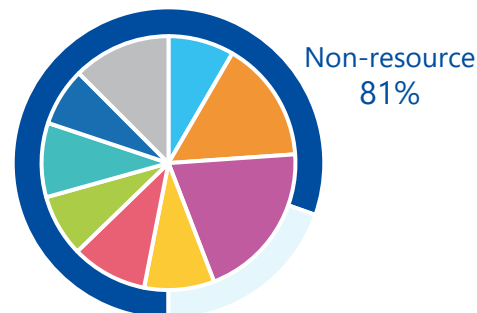

02

No specific sector focus

Pursue growth opportunities across all segments to build a well-diversified portfolio, with continuous asset replacement supported by HQ's annual strict review of all investments.

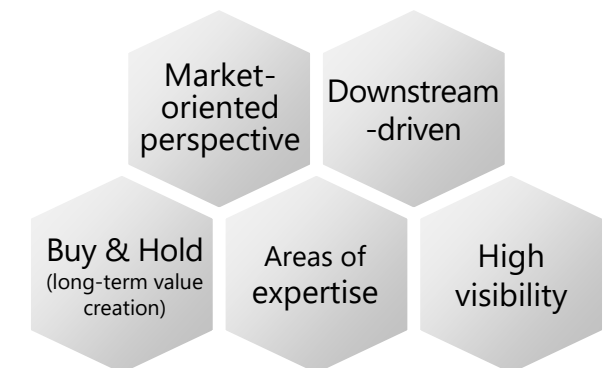

Net profit composition (FY2024)

03

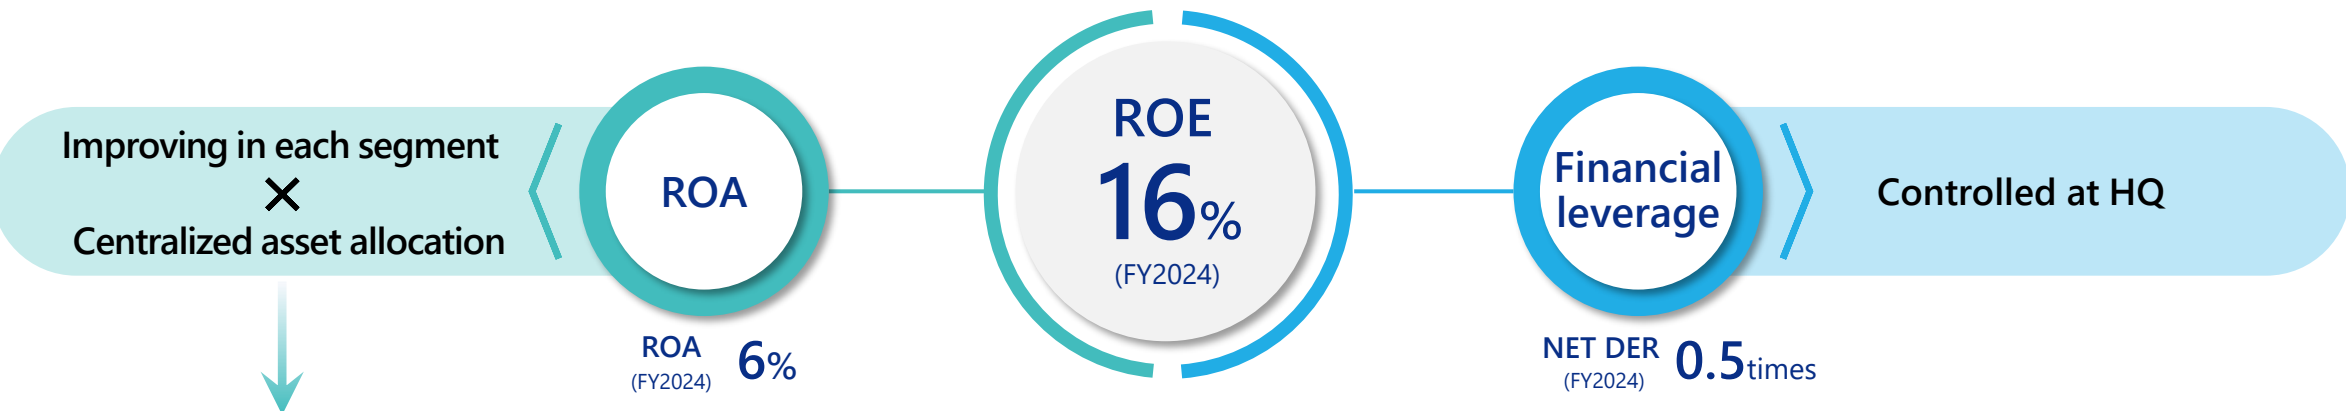

Investment Focus

Source opportunities leveraging business networks with a downstream-driven, market-oriented perspective. As a principle, we focus on long-term holdings, investments in areas of expertise, and projects with high visibility—particularly those contributing to earnings at an early stage—to realize post-acquisition value creation through our strength in hands-on management.

How we sustain high ROE

HQ controls leverage & asset allocation, while segments focus on improving ROA

Improving ROA in each segment

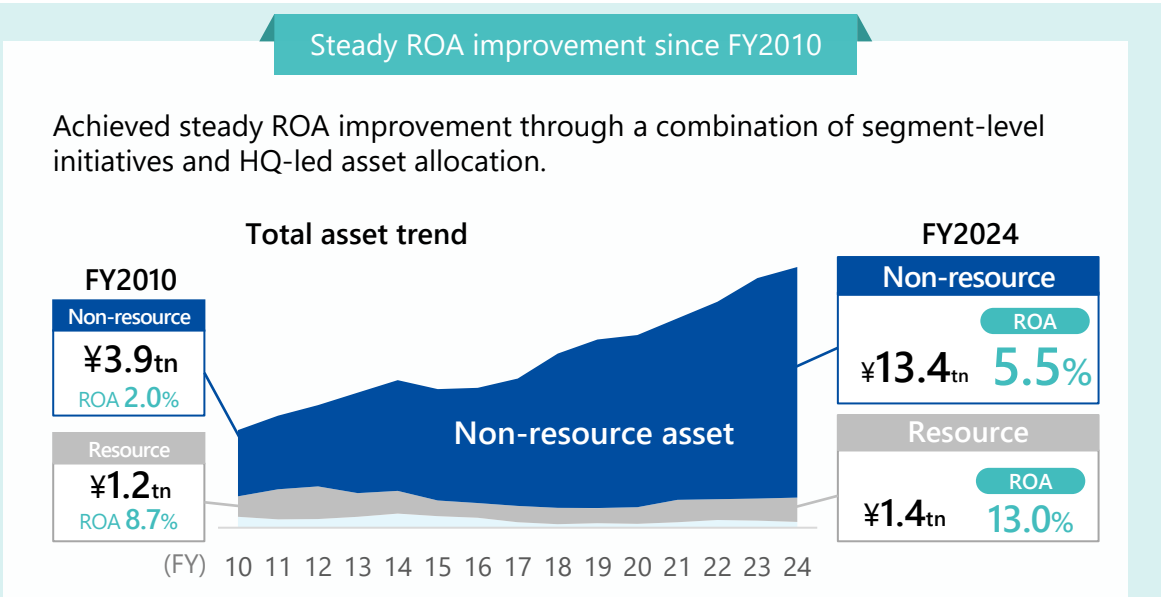

To enhance ROA while maintaining a well-diversified portfolio, we **steadily improve ROA across all segments** rather than focusing solely on high-ROA businesses.

HQ conducts **annual asset efficiency reviews by segment**, covering not only investments but also trading working capital.

Each segment then develops and executes concrete initiatives.

How we expand our business: Recent examples in Machinery

Expanding collaboration with leading Japanese manufacturers by leveraging our strengths

Finance Business development in North America

Collaboration with Hitachi Construction Machinery (HCM) in the North American finance business paved the way for a capital and business alliance with Kawasaki Motors, with whom we also launched a joint finance business in North America.

Chosen as the optimal partner in parent-subsidary listings resolution

In both HCM and AICHI cases, we were selected as the partner to resolve parent-subsidary listings.

Building Trust and Expertise

Since the 1990s, we have built trust and expertise through trading, Indonesian JVs, and more.
