The following is an overview of corporate governance at ITOCHU Corporation.

I Basic Policy, Capital Structure, Corporate Attributes and Other Basic Information

1. Basic Policy Revised

ITOCHU Corporation (“ITOCHU” or the “Company”) commits itself to the global good. To realize this mission, ITOCHU strives to respect each individual and to make meaningful contribution towards creating a bright future for all human beings and the environment. In addition, “I am One with Infinite Missions” was adopted as a corporate message to express the ITOCHU Mission in plain terms. Underlying the message is the exceptional ability of each employee, the core strength of ITOCHU.

It is our fundamental management policy to build a fair and good relationship with various stakeholders based on our corporate philosophy and our code of conduct and thus improve our corporate value from a long-term perspective. In accordance with this policy, with the intention to ensure proper and efficient execution by management, we will enhance the transparency of decision-making and establish a corporate governance system in which monitoring and supervision functions are appropriately incorporated.

A strong leadership and a transparent decision-making system are pillars of good corporate governance. ITOCHU adopts an organizational structure with the presence of a Board of Corporate Auditors (*kansayaku secchi kaisha*). In recent years, ITOCHU has gradually shifted to a governance model where executive officers decide and carry out the day to day business under the direction and supervision of the Board of Directors, as itself monitored and audited by the Board of Corporate Auditors.

In order for the Board of Directors to further exercise effective control and management over the corporation, independent outside directors have already joined the Board and, as another measure to strengthen its corporate governance, ITOCHU has also established a Governance and Remuneration Committee and a Nomination Committee as advisory committees to the Board of Directors. Each committee is chaired by an independent outside director and is composed of half or more outside members. In order to separate execution by and monitoring over management, we reduced several executive directors and the percentage of outside directors in our Board of Directors was increased to one-third or more from April 2017. We keep this percentage of outside directors also in FY2019 and onwards. Also, based on the idea that it is necessary to have a new management structure in order to evolve and create our business models in response to the rapidly changing world and also keeping management continuity in our mind, the new management structure that Chairman of the Company is

Chief Executive Officer and President of the Company is Chief Operating Officer has started as from FY 2019. In light of the fact that election of senior executives is a quite important strategic decision, we convened the Nomination Committee several times and the new management structure was well discussed in the committee and thereafter it was resolved at the Board of Directors. In appointing outside directors and corporate auditors, ITOCHU places great importance on their independence, and in this connection, ITOCHU has adopted its own independence criteria, augmenting the independence criteria established by the Tokyo Stock Exchange.

This highly independent Board of Directors monitors execution by management as well as deliberates the execution of business that is of high quantitative or qualitative importance. The Company believes this arrangement facilitates not only appropriate monitoring over execution by management but also the consideration of important business execution from an external perspective.

It is also vital that ITOCHU timely and adequately discloses its financial and non-financial information to the stakeholders as part of good governance. In May 2015, in line with the ITOCHU Mission and the Corporate Governance Code of the Tokyo Stock Exchange, ITOCHU adopted a “Basic IR Policy” to further promote a multi-party stakeholder dialogue. Through the communication with its stakeholders, ITOCHU aims to enhance its corporate value on a long-term basis.

We believe that our current corporate governance structure accords with good and effective corporate governance called for by the Tokyo Stock Exchange, in its Corporate Governance Code. ITOCHU will continue to evaluate and improve its corporate governance structure so that it always best suits ITOCHU in any given moment and time in its corporate history.

[Reasons for Not Implementing Principles of Corporate Governance Code] Revised

ITOCHU complies with all principles set forth in the Corporate Governance Code.

[Disclosure Based on Principles of Corporate Governance Code] Revised

(Principle 1.4)

■ Policy on Acquiring and Holding Listed Stocks

ITOCHU classifies investments other than for pure investment purposes and to consolidated companies as “Investments to Non-Affiliated Companies,” and the “Cross-Shareholdings” as set forth in Corporate Governance Code is included in this classification. ITOCHU engages in investments to non-affiliated companies in order to create business relationships. In principle, it is the Company’s policy to limit investments to non-affiliated companies to those that have a high likelihood of generating investment returns or those with a high strategic significance including affiliation in future. This policy remains the same, regardless of whether investments are in or outside Japan, or listed or unlisted. When making new investments, we employ investment criteria that consider the cost of shareholders’ capital.

Based on our internal rule, through annual review of all investments to non-affiliated companies, we examine economic (quantitative) rationale based on returns on our investment, and review strategic objectives to hold such investments taking into consideration the likelihood that our investment purpose is realized in the future. Investments that do not generate economic added value over a specified period of time or investments that lack strategic objective based on such annual review will be, in principle, sold in accordance with our internal criteria. Results of such annual review with respect to listed stocks are subject to further scrutiny at our Board of Directors from the perspective of economic rationale and strategic objective. Most recently, our Board of Directors made such scrutiny on 19 July, 2018 and reached its conclusion that the result of such annual review was reasonable.

ITOCHU places great importance on communication with each investee of our non-affiliated investments with the view to building, strengthening and maintaining business relationship as well as to improving corporate value of both ITOCHU and each investee. In May, 2015, ITOCHU adopted the following internal voting guideline with respect to our non-affiliated investments to listed entities in Japan to ensure that ITOCHU’s voting rights on all of such investments are exercised in a timely and adequate manner.

[Voting Guideline]

- (1) In principle, not to abstain from voting or to grant full authority to exercise voting rights on our behalf.
- (2) To decide for or against a proposal taking into consideration our investment purpose and holding policy.

ITOCHU's final position on voting is determined through internal decision making process based on an initial plan prepared by a department in question through which an investment is made.

(Principle 1.7)

■ Transactions between Related Parties

Based on our Rules of the Board of Directors, ITOCHU requires a resolution of the Board of Directors concerning transactions involving conflict of interests of Directors or transactions by Director which may compete with ITOCHU, and through such requirement, ITOCHU believes such transactions are adequately supervised by the Board of Directors.

(Principle 2.6)

■ Functional Performance as a Corporate Pension Asset Owner

In ITOCHU, our finance division dispatches several persons with high expertise in asset management to our corporate pension fund, and such persons, one of who is positioned as the executive director of the pension fund, are in charge of asset management thereof. Appropriate placement of such persons is arranged by sufficient training as well as planned and regular rotation. In addition, ITOCHU respects the intention of the pension fund regarding its investment portfolio and the stewardship activities of the investment management institutions. Furthermore, operating the pension fund in the interest of the third parties is strictly prohibited pursuant to the internal regulation of the pension funds, and the potential conflict of interest is regularly announced and well-known to the directors of the pension fund. Thus, we appropriately manage conflicts of interest that may arise between the beneficiaries of the corporate pension and ITOCHU.

The monthly remuneration is determined by contribution to the Company of each director and executive officer based on the base amount set by its position, while the total amount of the performance-linked bonuses and the performance-linked stock remuneration are determined based on consolidated net profit attributable to the Company for then-current fiscal year. Furthermore, the total amount of the market capitalization-linked bonus is determined based upon the increased amount of the Company's market capitalization as compared to the last fiscal year. Only monthly remuneration is paid to the outside directors and bonuses and stock remuneration are not paid

thereto. Monthly remuneration paid to corporate auditors is determined by consultation among corporate auditors and bonuses and stock remuneration are not paid thereto.

(Supplementary Principle 4.1.1)

■ Scope of the Matters Delegated to the Managements

As a corporation with the Board of Corporate Auditors (*kansayaku secchi kaisha*), ITOCHU has gradually shifted to a governance model where decisions of the day to day business are delegated to the managements to the extent permitted under applicable laws. ITOCHU’s Board of Directors assumes the role to supervise the business execution by the managements, as well as to decide corporate governance related matters and certain business matters which are highly important either qualitatively or quantitatively. Matters to be resolved at the Board of Directors are set forth in our Rules of Board of Directors.

(Principle 4.9)

■ Independence Criteria

ITOCHU’s Board of Directors has adopted its own independence criteria (augmenting the independence criteria established by the Tokyo Stock Exchange) following discussion at our Nomination Committee, which is disclosed at our homepage. Please refer to the following URL:

(Supplementary Principle 4.11.2)

■ Directors’ and Corporate Auditors’ Concurrent Positions Held at Other Companies

With the view to monitoring concurrent positions held by our directors and corporate auditors at other companies, ITOCHU’s Board requires, by the Rules of Board of Directors, each director and corporate auditor to seek approval of or report to the Board prior to holding a position at other entities. In addition, important concurrent positions of our directors and corporate auditors have been disclosed in our notice of general meeting of shareholders. Please refer to the following URL with respect to disclosure made in this fiscal year:

(Supplementary Principle 4.11.3)

■ Evaluation as to the Effectiveness of the Board of Directors

The Company conducted the evaluation as to the effectiveness of the Board of Directors targeting the directors and corporate auditors in FY2018. As a result of the evaluation above, in terms of the structure of the Board of Directors and its advisory committees as well as the roles and duties, operation status, information provision and training, the Board of Directors of ITOCHU confirmed that the effectiveness of the Board of Directors was secured.

Based on the results of the previous evaluation as to the effectiveness of the Board of Directors (FY2016), following the deliberation at the Governance and Remuneration Committee, the total number of the Board of Directors was reduced and the percentage of the Outside Directors were set to at least one-third, creating a structure in which the Board of Directors was transitioned "Monitoring-Focused Structure".

According to the external consultant, it is evaluated that the effectiveness of the Board of Directors was essentially strengthened with strengthening pre-briefing for the Outside Directors and Outside Corporate Auditors, the enhancement of reporting business execution status at the Board of Directors as well as positive expression of opinions by the Outside Directors and Outside Corporate Auditors.

Meanwhile, there was an opinion that it is necessary to continue discussing the operation of the Board of Directors based on the transition to "Monitoring-Focused Structure" and the enhancement of reporting to the Board of Directors the deliberations of the advisory committees.

Based on the results of this Evaluation of the Board of Directors, we will continue to maintain and improve the effectiveness of the Board of Directors.

(Supplementary Principle 4.14.2)

■ Training Policy

The Company conducts training related to corporate governance and other matters as part of its training for newly appointed internal and outside directors and corporate auditors. The Company also provides directors and corporate auditors with opportunities for training at third-party institutions, with the Company bearing the costs of such training. Also, to ensure that management supervision by directors and audit by corporate auditors are adequately performed, before each meeting we provide to outside directors and corporate auditors prior explanations on matters presented to each meeting of the Board of Directors through respective offices of the Board of Directors and the Board of Corporate Auditors. In addition, ITOCHU strives to ensure that outside directors and corporate auditors appropriately understand its business environment and challenges through various occasions such as introductory session concerning ITOCHU's business upon election, visits to business premises in or outside Japan, periodical lunch sessions with the managements and explanatory sessions on matters requested by outside directors and corporate auditors

(Principle 5.1)

■ Policy of Dialogue with Shareholders

In our "Basic IR Policy," we have established our policy of dialogue with shareholders and other stakeholders as follows:

(Dialogue with Shareholders and Investors, etc.)

- The chief financial officer (CFO) has the primary responsibility for dialogue with shareholders and investors, etc. The senior management and directors will strive to engage in dialogue with shareholders and investors, etc., within reasonable limits.
- The CFO supervises the Investor Relations Department as the section in charge of dialogue with shareholders and investors. The Investor Relations Department assists the senior management and directors in engaging in dialogue with shareholders and investors, etc., by maintaining close cooperation with relevant internal departments and sections, including through regular meetings with them.
- The CFO regularly reports to the board the views and concerns of shareholders and investors, etc., learned through dialogue. In addition, the CFO shares the views and concerns of shareholders and investors, etc., with the senior management as needed.

CORPORATE GOVERNANCE

- With the Investor Relations Department in charge of related activities, the CFO promotes dialogue with shareholders and investors, etc.

ITOCHU strives to achieve our group's continuous growth and to enhance corporate value on mid-to-long term basis. CORPORATE GOVERNANCE

- All of the Company's outside directors and outside corporate auditors who qualify as an independent director/ corporate auditor are designated as independent directors/ corporate auditors.
- ITOCHU has established a *de minimis* standard of ¥10 million per fiscal year relating to a donation made by the Company. ITOCHU views that a donation within the *de minimis* standard above is unlikely to affect our investor's judgment on its voting, thus description on such donation is omitted from our filings of independent directors/ auditors.
- In January and February 2018, the Japan Fair Trade Commission issued cease and desist orders under Article 7, Paragraph 2 of Japan's Antimonopoly Act to the Company regarding its sales of uniforms to West Japan Railway Company and NIPPON TELEGRAPH AND TELEPHONE EAST CORPORATION up until the FY2017. In addition, in July and October 2018, the Japan Fair Trade Commission issued cease and desist orders and a surcharge payment order under Article 7, Paragraph 2 of Japan's Antimonopoly Act to the Company regarding its sales and supply of uniforms to All Nippon Airways Co., Ltd. and NTT DOCOMO, Inc (the said surcharge payment order is with respect to NTT DOCOMO, Inc. The amount of surcharge is 4.29 million Japanese Yen). These sales and supply of uniforms form a part of ITOCHU's past uniform business activities and practices that took place up until FY2017. Each outside director and corporate auditor has continually made statements in Board of Directors meetings concerning the importance of legal compliance, and, after the incident became known, conducted proactive advocacy concerning the further enforcement of legal compliance in the Company and its group, as well as measures to prevent recurrence of incidents, including the development of internal rules for compliance with the Antimonopoly Act, the promotion of voluntary reporting of violations, and the strengthening and enhancement of education on compliance with the Antimonopoly Act. a. Total amount paid to all directors:

The total amount paid to all directors shall be the lesser of (i) the sum of the amount paid to an individual director or (ii) ¥1.0 billion.

b. Amount paid to an individual director

The formula to calculate the amount paid to an individual director is below.

Total base amount paid to all directors = (A + B + C) x Sum of Position points for all the eligible directors/55

Where:

A = (Consolidated net profit attributable to the Company for FY2019 for the portion up to ¥200.0 billion) x 0.35%

B = (Consolidated net profit attributable to the Company for FY2019 for the portion more than ¥200.0 billion but up to ¥300.0 billion x 0.525%

(amount of less than ¥1 shall be rounded down)

The amount paid to an individual director = (Total base amount paid to all directors as above x Position Point/Sum of Position points for all the eligible directors) x 30% + (Total base amount paid to all directors as above x Position Point/Sum of Position points for all the eligible directors) x 70% x plan achievement rate of the consolidated net profit of the assigned division/department

- Market Capitalization-linked Bonuses

By resolution of Board of Directors held on 2 February, 2018 and for the purpose of the incentive towards increasing the Company's corporate value, ITOCHU introduced the bonus structure which is linked to the increased amount of the Company's market capitalization as compared to the last fiscal year.

Director market capitalization-linked bonuses for FY2019 will be paid in amounts calculated according to the methods described below, in accordance with the Board of Directors resolution at a meeting on 13 June, 2018.

The formula to calculate the amount paid to an individual director is below.

The amount paid to an individual director = (the average daily market capitalization of the Company in FY2019 - the average market capitalization of the Company in FY2018) x 0.1% x Position Point / 108.8

The points assigned to each position are same as those applied for performance-linked bonuses.

Market capitalization-linked bonuses together with performance-linked bonuses are paid to the eligible directors within the director bonuses limit of ¥1 billion.

(c) Performance-Linked Stock Remuneration Plan

- By resolution at the 92nd Ordinary General Meeting of Shareholders held on 24 June, 2016, ITOCHU introduced the performance-linked stock remuneration plan (the "Stock Remuneration Plan") and, by resolution of the Board of Directors held on 2 May, 2018, we continue this plan from FY2019. This plan is described below.
- Under this plan, in June of every year during the trust period, directors who served as directors from 1 July of the previous year to the last day of June of the said year are granted points based on performance in the fiscal year that ended on 31 March of said year and in accordance with the number of months of service during that period.
- The method of calculating the number of points granted to directors (excluding outside directors) in FY2019 is described below. One point corresponds to one share in ITOCHU, and amounts of less than one point are discarded.

Points = Individual stock remuneration amount (Note 1) / Average acquisition stock price of ITOCHU shares in the trust (Note 2) × {(Number of months of service from July, the beginning month of the applicable period of payment, to June of the following year (rounding up fractions of less than one month)) / 12} (rounding down fractions)

(Note 1) the individual stock remuneration amount is calculated on the basis of the total stock remuneration amount, which is calculated as indicated below.

a. Total stock remuneration amount

= (the amount of consolidated net profit attributable to ITOCHU for FY2019 – ¥300.0 billion) x 0.175% x Sum total of position points of eligible directors / 55 (rounding up fractions of less than ¥1)

b. Individual stock remuneration amount

= Total stock remuneration amount x Position points of each Director / Sum total of position points of directors (rounding down fractions of less than ¥1,000)

Position points for each director are the same as the number used for calculating director bonuses.

(Note 2) In the event that the trust period has been extended, this is the average acquisition stock price of ITOCHU shares that were acquired by the Trust in accordance with the extension of the trust period.

(However, if no ITOCHU shares are acquired by the trust in accordance with the extension of the trust period, then this is the closing stock price of ITOCHU shares on the market of Tokyo Stock Exchange on the first day of the extended trust period).

- Points to be granted to executive officers (excluding those serving concurrently as directors) in June of each year will be calculated using the similar method as points for directors.
- As the Stock Remuneration Plan, ITOCHU has adopted a framework called “Board Incentive Plan Trust (BIP)” (“BIP Trust”). The BIP Trust is a stock incentive plan for executives, based on the performance share and restricted stock plans in the United States. ITOCHU will conduct delivery and payment of ITOCHU shares acquired by the BIP Trust and an amount of money equivalent of the conversion value of said shares (“ITOCHU Shares, etc.”), together with dividends derived from ITOCHU shares, to Directors, etc. following retirement from office (or after death in the event of the death of a Director, etc.; the same applies hereinafter), based on performance, etc. Please see Chart 1 below for overview of the BIP Trust.
- Outline of the Stock Remuneration Plan is as follows:
 - (1) Persons Entitled to Receive Stock Remuneration: Directors and executive officers of ITOCHU (excluding outside directors and those who are non-residents of Japan)
 - (2) Maximum Amount of Money Contributed by the Company to the Trust: a total of ¥1.5 billion for 2 fiscal years
 - (3) Method for the Acquisition of Shares by the Trust: Scheduled to be acquired on the stock market (thus no dilution of shares is anticipated)
 - (4) Upper Limit on the Number of Shares to be Acquired by Directors, etc.: For the trust period, with an applicable period of 2 fiscal years, the upper limit will be 1,300,000 points (an average of 650,000 points per year)
 - (5) Performance Index under the Stock Remuneration Plan: Consolidated net profit attributable to the Company (upon which the amount of total stock remuneration will be calculated. See above for more details)
 - (6) Timing of Delivery of Shares: After retirement from Office
 - (7) Voting Rights Concerning Shares in the Trust: Will not be exercised in order to ensure neutrality toward management

[Policy and Process for Appointing Executive Officers and Candidates for Directors and Corporate Auditors]

1. Policy and Process for Appointing Executive Officers

Executive Officers are appointed annually by the Board of Directors among, in principle, employees regarded as candidates for executives based on our HR system with high integrity and exceptional ability (or those who have already been appointed as Executive Officers) who are judged to be capable of assuming the role as the Executive Officers. Candidates for Executive Officers are first selected by the Chairman & Chief Executive Officer based on, among others, recommendations from other officers (or in terms of incumbent Executive Officers, based on their respective performance) and submitted to the Nomination Committee for further deliberation. Based on the deliberation and advice of the Nomination Committee, the Board of Directors appoints Executive Officers by its resolution. In case that an Executive Officer breaches the Executive Officers' Regulation of the Company or otherwise his or her performance is judged to be not appropriate, the Chairman & Chief Executive Officer (or the chairman of the Nomination Committee) firstly makes a proposal of dismissal, and the Board of Directors dismisses such Executive Officer by its resolution based on the deliberation and advice of the Nomination Committee.

2. Policy and Process for Appointing Candidates for Directors

In order to effectively supervise management and decide important business matters as the Board of Directors of a general trading company with broad range of business, ITOCHU Corporation's Board of Directors consists of, in principle, the Chairman, President, officers in charge of headquarters administrative functions, one appropriate Division Company president, and such several outside directors that the percentage of outside directors in our Board of Directors is one-third or more to improve supervisory function of the Board of Directors. In nominating outside directors, ITOCHU Corporation prioritizes candidates with higher independence, based on the criteria for "independent directors" prescribed by the Tokyo Stock Exchange, and ITOCHU Corporation's "Independence Criteria for Outside Directors and Outside Corporate Auditors," who with his or her experience and knowledge in the relevant category, are expected to contribute to the management of ITOCHU Corporation. Proposal on candidates for directors is created by the Chairman & Chief Executive Officer taking into consideration diversity such as knowledge, experience, gender and international experience, and submitted to the Nomination Committee for further deliberation before the Board of Directors finally nominates the candidates for election at the General Meeting of Shareholders.

3. Policy and Process for Appointing Candidates for Corporate Auditors

As Board of Corporate Auditors of a *sogo-shosha* with broad range of business, for effective monitoring and audit, candidates for corporate auditors are selected from those with understanding about ITOCHU's management and with high expertise and extensive experience in the relevant area such as accounting, finance, legal and risk management. Among the members of ITOCHU's board of Corporate Auditors, half or more of the members always consist of outside corporate auditors. In appointing outside corporate auditors, ITOCHU prioritizes candidates with higher independence based on the independence criteria prescribed by the Tokyo Stock Exchange, and ITOCHU's own independence criteria who are expected to effectively monitor and audit ITOCHU's activities. In addition, ITOCHU selects at least one corporate auditor with adequate expertise in finance and accounting. Candidates for corporate auditors are selected by the Chairman and Chief Executive Officer after the discussion with the executive Corporate Auditors and submitted to the Nomination Committee for further deliberation before the Board of Directors (with consent of the Board of Corporate Auditors) finally nominates the candidates for election at the General Meeting of Shareholders.

[Outline of Limitation of Liability Contracts]

Pursuant to Article 427, Paragraph 1, of the Companies Act, ITOCHU has entered into limitation of liability contracts with respect to liability as set forth in Article 423, Paragraph 1, of the Companies Act with outside directors Ms. Atsuko Muraki, Mr. Harufumi Mochizuki and Mr. Masatoshi Kawana and outside corporate auditors Mr. Shingo Majima, Mr. Kentaro Uryu, and Mr. Kotaro Ohno. Under these

contracts, their liabilities are limited to the lowest amount of liability pursuant to Article 425, Paragraph 1, of the Companies Act if and so long as they have acted in good faith and without gross negligence in performing their duties.

3. Reason for Adopting the Current System **Revised**

The Company, as a company with corporate auditors, endeavors to strengthen the monitoring/supervising function and ensure the transparency of decision making by having the corporate auditors (including outside corporate auditors) fully monitor corporate management. In addition to its corporate governance system primarily based on the monitoring of corporate management by corporate auditors, the Company appointed outside directors the percentage of which is one-third or more of the total number of the directors, and keep this percentage of outside directors also in FY2019 and onwards. And, the Company has already appointed independent outside directors and established the Governance and Remuneration Committee and the Nomination Committee, as advisory committees to the Board which are chaired by outside directors and which comprise of half or more outside members, for the purpose of further increasing the effectiveness of the supervision of management by the Board of Directors and strengthening and improving the transparency of decision making. The Company believes that its current corporate governance system—which is based on the Board of Directors including multiple highly independent outside directors, the said advisory committees to the Board and the Board of Corporate Auditors, more than half of whom are outside corporate auditors— accords with ITOCHU’s “Basic Policy” stated in I-1 above in this report.

Regarding the formulation of policies and important matters, discussions and decisions are made at the "Sustainability Committee", one of the main internal committees, and the main activities of sustainability promotion are regularly reported to the Board of Directors. In addition, we regularly grasp social expectations and requests for our Company through "Sustainability Advisory Board" aiming at dialogue with internal and external stakeholders, and make use of them in promoting sustainability.</p> <p>In April 2018, we identified material sustainability issues (materiality) incorporating environmental, social and governance (ESG) perspectives. As a specific measure to identify materiality and contribute to solving social issues, we are putting it in the "Sustainability Action Plan" for each business field. This plan sets out "commitment" showing medium and long-term growth and as to how to provide society with value, concrete "response approach" and "outcome indicator" to achieve commitment, and promotes sustainability throughout the entire Company. To resolve the materiality through our business field leads to</p>

	<p>the "sustainable growth through a reinvented <i>sampo yoshi</i> approach" which we aim for in the medium-term management plan "Brand-new Deal 2020". Our sustainability efforts to fulfill our responsibility to society now and to the future also contribute to achieving "sustainable development goals (SDGs)" adopted by the United Nations in 2015.</p> <p>In 1997, we introduced the environmental management system (EMS) based on ISO 14001 for the first time as a trading company, and actively engage in environmental protection business that utilizes a wide range of functions as Trading House and network, and we, not only the Company but also our entire group, are promoting efforts in response to the growing global environmental issues such as global warming.</p> <p>Since 2009, we are also participating in the United Nations Global Compact, a global effort to realize sustainable growth in the international community. We are actively participating in activities as a member company of "Global Compact Network Japan" (GCNJ), a local network of the United Nations Global Compact. In accordance with the ten principles of "Human Rights", "Labor", "Environment" and "Prevention of Corruption", we practice the concept of the UN "Guiding Principles on Business and Human Rights" for risk management and promote our employees.</p> <p>■ Please visit the following URL to see our sustainability action plan thorough our business activities. https://www.itochu.co.jp/en/csr/activities/actionplan/index.html</p>
<p>Establishment of Policy Concerning Disclosure of Information to Stakeholders</p>	<p>The Basic Policy regarding the Internal Control System states that ITOCHU will provide timely and appropriate disclosure.</p>
<p>Other</p>	<p>1. Supporting the success of human resources diversification In our recognition, an "attractive company and corporate culture" is that there exists an environment in which each employee can actively perform his or her ability without being conscious of gender, nationality, and age, and such environment leads to strengthening individual and organizational performance as well as enhancing profitability. In particular, as global competition intensifies, "organizational diversity" is indispensable in order to respond precisely to the various needs of the market and to continuously create new business and added value. Based on this idea, the Company formulated the "Human Resource Diversification Promotion Plan" in December 2003, and, during 10 years thereafter, expanded the number of diversified human resources, promoted their settlement and performance, and prepared the support system for compatibility between life events such as nursing and caring and work at a level higher than the statutory level. Currently, with utilizing these systems as safety nets, we sincerely make an individual support according to their life stage and career as by "<i>Gen(front)·Kotsu (individual)·Tsu (connection) Kaikaku</i>". These efforts were evaluated, and we were awarded Platinum Kurumin Company from Ministry of Health, Labor and Welfare, FY2015 Nadeshiko stock, New Diversity Management Company Top 100, and FY2017 Equality/Compatibility Promotion Company Award, Family-Friendly Company Division, of Minister of Health, Labor and Welfare.</p> <p>2. Promoting women success What we mostly focus on human resources diversification is support for women success. Under the "Human Resource Diversification Promotion Plan", we expanded the number of women employees, gradually expanded childcare and nursing care-related regulations, established in-house childcare centers, and</p>

implemented mentor and career forums.

Currently, under the action plan corresponding to the Act on Promotion of Women's Activities, we provide carefully individualized support according to individual's life stage and career, and, by providing training for developing young women' career awareness and promoting awareness of managers, we promote mainly improving the environment that women can actively work as well as developing women candidates for managers in the next generation. Specifically, we have introduced (a) support for employees posted overseas to take their children along without taking their spouse, (b) a system that permits leave of absence in the event of the transfer of a spouse and reemployment system within 5 years, (c) the work from home system, which is applied based on specific criteria to employees who have time constraints due to childcare, nursing care, or similar reasons and those who have difficulty commuting for reasons such as pregnancy, injury, or illness, (d) transfers from clerical positions, (e) three-party meeting on return from childcare leave and follow up meeting for those who have returned to work from childcare leave, (f) interviewing system for women's employees before and after transfer to overseas, (g) preparation of individual career plan for the next generation management and (h) sending women employees to the external training session.

3. Promotion of Working-Style Reform

For our company aiming for management based on a small number of elite personnel systems, it is essential to achieve high productivity and individual employee skills. We regard "Working-Style Reform" as an important measure of the management strategy for improving corporate value, consider the customer's perspective first, and are practicing measures aiming for not "easy to work", but "a company that takes on challenges and accomplishes worthwhile work. We introduced "Morning Focused Working System" in FY2014 and affected the working-style reform of government as well as many private entities and thereafter, developed "Health and Productivity Management" in FY2017 and "full support measures for balancing cancer care and work" and "Dress-down Days" in FY2018. As a pioneer of Working-Style Reform, we will promote measures unique to ITOCHU, and we will realize a workplace where all employees have a sense of motivation and can work with peace of mind without worry.

4. Health and Productivity Management

To maintain further growth and maintain competitiveness, we believe that an environment in which each and every employee can demonstrate the maximum results is essential, and we believe that it is the cornerstone of strengthening good health of each employee.

Under the idea that improvement of "good health" of each employee leads to realization of permanent enhancement of corporate value that is beneficial not only for "employees" but also for "company" and "shareholders", we regard health and productivity management as one of our management strategies and we established ITOCHU Health Charter in June 2016.

With this charter as the core, we strongly promote morning focused working system, increase the acquisition rate for the vacation leave, strengthen support system for "meals" and "exercise" (company-wide deployment of health management applications and introduction of individual guidance programs using wearable terminals etc.), and improve the vitality of our employees both mentally and physically through measures such as maintenance of mental health and strengthening of mental response.

From August 2017 we introduced "full support measures for balancing cancer care and work" based on the idea that the working environment where our

	<p>employees can survive serious diseases such as cancer and continue to work as much as they wish with no worry, and the Company support such employees leads to motivation and challenge of our employees themselves, and at the same time, their colleagues as well as the organization which such employees work for cooperate each other and thus such cooperation strengthens our organization. As a leading company of health and productivity management, we are awarded "Health Management Stock 2016 · 2017" and "A company promoting cancer care and developing actions" from Minister of Health, Labor and Welfare Award. We will actively promote health and production management in the future.</p>
